

Rock Cycle Song

(Sing to the tune of "Row, Row, Row Your Boat")

SEDIMENTARY rock

Has been formed in layers
Often found near water sources
With fossils from decayers

Then there's **IGNEOUS** rock

Here since Earth was born
Molten Lava, cooled and hardened
That's how it is formed

These two types of rocks

Can also be transformed
With pressure, heat and chemicals
METAMORPHIC they'll become.

(Don't forget to sing this as a "Round"; after all, it is the Rock "Cycle"!)
