

## Learning through discovery...

Over a million years ago, deep beneath the ground, our classroom began to form. Water gradually dissolved the rock to create an amazing underground world. Today, you can still see that water dripping into our cave. Listen to the timeless sound, and imagine yourself back in an ancient world.

## ...where wonders loom around every corner...

Cave of the Mounds is proud to serve a wide variety of groups ranging in age from preschool through adulthood, for both recreational and educational purposes. We provide a memorable experience designed to meet the needs of each group while supporting the goals and objectives of teachers and group leaders.

## ...for an experience they'll never forget!

Educational Programs are developed and presented with the cave experience in mind, encouraging your group to make connections in relation to their actual experience and that's powerful learning!
